The measurements shown on the size chart above are body measurements. Locate your body measurements on the size chart to determine which size you should purchase.

To get an accurate body measurement, always keep the tape parallel to the floor when measuring. Wear undergarments only; do not measure over clothing. For an accurate denim measurement, lay your favorite pair of jeans out on a flat surface to measure the rise, inseam and leg opening.

Once you know your body measurements, consult the Size Chart above and Size Tips on the product pages to determine which size you should purchase.
