Bust	33"	34"	35"	36.5"	38"

The measurements shown on the size chart above are body measurements. Locate your body measurements on the size chart to determine which size you should purchase.

To get an accurate body measurement, always keep the tape parallel to the floor when measuring. Wear undergarments only; do not measure over clothing. For an accurate denim measurement, lay your favorite pair of jeans out on a flat surface to measure the rise, inseam and leg opening.

Once you know your body measurements, consult the Size Chart above and Size Tips on the product pages to determine which size you should purchase.

**Denim Measurements:**

**Rise**  
Measure from the top of the waistband (point **A**) to the bottom of the crotch seam (point **B**).

**Inseam**  
Measure from the bottom of the crotch seam (point **B**) to the bottom of the hem (point **C**) along the inside seam.

**Leg Opening**  
Measure the circumference of the bottom hem (point **D**).

**Body Measurements:**

**Waist**  
Bend to one side to find the natural crease of your waist. Measure across at this point.

**Hip**  
Standing with feet together, measure around the fullest part of your hips and rear.
