- Tips:**
- Measure fingers at the end of the day, when fingers are the largest.
 - Avoid measuring while hands are cold, when fingers are the smallest.
 - The wider the ring band, the tighter the fit.

- How to Measure Your Finger:**
1. Find a piece of paper (no wider than 3/4") or string long enough to wrap around the finger on which you will wear the ring.
 2. Wrap the piece of paper or string around the base of the appropriate finger tightly, but comfortably, and with enough room to slide over the knuckle appropriately.
 3. Mark on the paper or string where the two pieces come together and overlap.

4. With a ruler, measure the distance between the marks and use the **Ring Size Chart** to find your ring size.
