

To get an accurate body measurement, always keep the tape parallel to the floor when measuring. Wear undergarments only; do not measure over clothing. Once you know your body measurements, consult the Size Chart below and the Fit Tips to determine which size you should purchase.

Body Measurements:

Bust
Measure around the fullest part of the bust.

Waist
Bend to one side to find the natural crease of your waist. Measure across at this point.

Hip
Standing with feet together, measure around the fullest part of your hips and rear.

The measurements shown on the size chart below are body measurements. Locate your body measurements on the size chart to determine which size you should purchase.
