

## HEEL HEIGHT MEASUREMENT

Heel heights are measured from a size 8½ shoe and will vary slightly depending on the size you order. The heel is measured up the center side of the heel to where it meets the sole. All measurements are approximate and rounded down to the nearest quarter inch.

**Heel Heights:**

- Flat (0"-1/2")
- Low heel (1"-1½")
- Mid heel (2"-2½")
- High heel (3"-3½")
- Ultra-high heel (4" or taller)
